## Attendance of museums and galleries.

## Introduction

The aim of this report is to compare attendance of museums and galleries in different years. Report also gives general information about people's interests and recommendations to raise number of visitors attending museums and galleries.

## General information.

According to the table, attendance of British Museum jumped between 2013 and 2015. Then, between 2015 and 2017, we see a little raise of a number of visitors. Analyzing data in the table, we can know that ~~vis~~ visitors attend National Gallery oftener in 2017 than in 2015 and 2013. Tate Gallery drew on a plenty of attenders too. Unfortunately, rate of attendance of Natural History Museum and Science Museum fell down. It means that science and history fascinate people's attention less than before.

## Comparison.

It is evident that in 2013 Science Museum ~~respect~~ respectively took first place in attendance of visitors. In comparison, in 2017 visitors began to attend Natural History Museum and Science Museum seldomer. Moreover, popularity of British Museum, National Gallery and Tate Gallery in 2017 is much more than in 2013 and 2015.

## Recommendations.

Trying to increase their attendance Natural History Museum and Science Museum should appeal to society to explain the <sup>gr.</sup> importance of science. Additionally, science organizations must spread substantial fact that only science can help mankind.

---	---	---	---	---	---

to survive in modern conditions of life.

Conclusion.

To sum up, museums and galleries are very ~~the~~ important things in our lives, so we must help them to <sup>to</sup> develop and increase their influence. People are interested in art more than in science. I tell

$$PK3 - 2 + 2 + 2 + 2 + 2 = 10.$$

$$OT - 1 + 1 + 1 + 1 = 4.$$

$$90 - 1 + 1 + 2 = 4.$$
