National museums and galleries in England.

There are a lot of interesting and amazing museums and galleries in England. Every museum and every gallery has its own history. Nowadays, ~~people~~ not so many people attend these cultural places because it is more easier to find information in the Internet, not at the museums and galleries. *154*

So, the statistics shows that the attendance of British Museum, National Gallery and Tate Gallery has respectively increased. This means that people are interested in visiting popular museums and galleries and still they want to learn something new. But the statistics also shows that the attendance of Natural History Museum and Science Museum had become lower in 2015 but in 2017 it has increased again. Here can be made a conclusion that British Museum is more popular with people than, for example, Natural History Museum. *185*

In my opinion, directors should make variety of things and activities at the museums and galleries more different and make up interesting exhibitions more often to make people pay attention and get interested. Also, directors can make advertisment of museums and galleries to increase the attendance. *146*

In conclusion, I want to say that visiting museums and galleries is useful for all people. By visiting it, everybody can broaden knowledge about something new. *126*
