Introduction:

The analysis of chart shows the changing results of visiting national museums and galleries in England for three separate years. The aim of this report is to examine people's attendance in detail.

Describing main features:

As we can see, some museums and galleries have the bigger amount of visitors since 2013. On the contrary, museums which have introduced admission charges ~~lost~~ ~~the~~ ~~almost~~ ~~the~~ ~~half of~~ in 2014 lost almost the half of their visiting people. It means that Entrance free of charge is more attractive ~~less~~ than those where you need to pay for.

Comparisons: Concerning amount of visitors ~~it~~ I can say ~~that~~ results of British Museum have ~~rocket~~ from 2.6 mln in 2013 to 5.1 million people in 2015. Amounts of interested people in National Gallery grows also and rates with British museums. Attendance of Tate Gallery has risen too. However, Natural History and Science museums have lowered results from 3.7 mln to 1.9 mln and from 3.8 mln to 1.6 mln respectively.

Recommendations: Due to results it is necessary for some museums to ~~lower~~ their charges in order to increase the number of visitors. As far as Tate gallery is concerned it should ~~to~~ draw on some painting ~~besides~~ interesting for attracting more people.

Conclusion: To conclude, It should be said that appeal to society and sustain with it is necessary for historic and art establishments such as museums and art galleries, that is why the most museums are free of charge

PK3 = 1 + 2 + 2 + 1 + 1 = 7
OM = 0 + 1 + 1 + 1 = 3 + 1
ЯОМ = 0 + 1 + 0 = 1 / 118 + 1 + 1 = 135.
