exam 1
gr 1.

„Do you appeal to go to the museums and galleries?“
It was the one of the questions that people were asked
on the street.

30

Our time is time of huge amount of scientific facts,
historical events, art actions. And museums, galleries
are the ways to remember and imagine how science,
art and history have been (developed) developing since
the first people appeared.

sp. 1.

Some researches about attendance of museums and
galleries let us make some conclusions. Firstly,
the amount of people, who are interested in visiting
the Science Museum, has been decreasing since first
research had done (2013). Also amount of people,
who want to visit Natural History Museum, is decrea-
sing. But amount of people, who attend the National
Gallery, rise from 2.7 mln to 4.8 mln. It seems
like people prefer art to science. It is interesting
kind of people's preferences changing.

exam 1

exam 1

But what will happen if attendance of the Science
Museum and Natural History Museum continue to
decrease? Unfortunately, they will be closed. So I
recommand people to be interested in every part of
life and attend science and history museums
like these are which (were called B) had been
called before. (They have a lot of) Their exhibitions
include a lot of unbelievable subjects.

opp 1

exam 1

Everything depends on us. And it is our choice: to
be interested in, intelligent, smart person or not.
